It is essential that the student should be provided with atlases, or with the necessary hand-map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography:—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.
(4) A small collection of typical rocks; in particular, those of the Province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic lantern and slides.

III. (1) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Dutt, Head Pandit, Habigunj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Phillip and Son, London, W. & A. K. Johnston, London, and Messrs. Ruddiman, London. Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" Series of large wall maps of the continents published by George Phillip and Son is good and up to date; as also are the geographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps, also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, name on one side, and the same map without names on the reverse, published by Armand Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps showing river systems and a few towns published by the same Company, are excellent for class use.

The autograph hand-maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand-maps. The 15″ map of the World on Mollweide's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horns Hacbette of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two or three rupees each.

Map, lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Sain of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.]

In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with, on their own individual account or working in pairs.

J. C. ROY, for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 21st November 1931.

Monthly Weather and Crop Report of Bengal for October 1931.

I. **Character of the season.**—During the month under review, the rainfall was in excess of the normal almost throughout the Presidency except in parts of Murshidabad, North Bengal, Mymensingh, Chittagong and in the Cooch Behar State where the fall was below the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for and sowings of early spring crops were progressing under favourable conditions but heavy rain during the last part of the month retarded the operations in places to some extent.

III. **State of standing crops.**—The state of standing crops was generally fair. The rainfall during the month helped the growth and development of transplanted paddy.

IV. **Prospects and probable outturn.**—The prospects of standing crops were generally satisfactory. The outturn of sugarcane was estimated at 88 per cent. of the normal.

V. **Damage to standing crops.**—No damage to standing crops was reported from any part of the Province.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Sporadic cases of cattle-disease, however, were reported from five districts of the Province and from the Cooch Behar and Tripura States.

VII. **Failure of pasturage and fodder.**—Excepting in parts of Nadia, Rajshahi, Rangpur, Pabna and Faridpur, no insufficiency of fodder was reported.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in six districts, fell in seven and remained stationary in the rest of the Presidency. The prices ranged from 8 seers per rupee at Howrah and Tippera to 16 seers per rupee at Birbhum.

IX. **Condition of agricultural population.**—The condition of agricultural population is on the whole fair except in the flood affected tracts of Bogra where distress still continues to be reported.

CALCUTTA, THE 20TH NOVEMBER 1931.

RESOLUTION—No. 6838Vety.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

Read—

Annual Reports of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College for the year 1930-31.

I.—Civil Veterinary Department.

The year was on the whole a healthy one for the live-stock of the province, the mortality being the lowest in the last fourteen years. The equines were practically immune from contagious diseases, and a noticeable feature was the total absence of deaths from Glanders. Rinderpest, however, continues to be the most serious scourge of the bovines, being responsible for about 75 per cent. of the deaths whilst Hæmorrhagic Septicæmia accounted for as many as 2,035 or 16 per cent. deaths.

2. The usual programme of preventive inoculation by the serum alone method for dealing with outbreaks was carried out with success, the total number of deaths amongst cattle so inoculated being only 0·5 per cent. But as noticed in the resolution on the previous year's report the serum simultaneous method of inoculation which confers long immunity is a great desideratum. A demonstration of this method of inoculation was undertaken in the Chandkhali khas mahal area of Khulna district with success. It is hoped that when the ground is prepared by such demonstrations it will be possible to introduce this method of inoculation on an extensive scale.

3. A joint enquiry into the causes of Hæmorrhagic Septicæmia which caused serious mortality amongst the cattle at the Rangpur cattle farm was undertaken by the department and the experts at Muktesar. Mr. MacGregor, Principal, Bengal Veterinary College, made a careful local investigation and submitted a valuable report after the close of the year. It is hoped that the adoption of the remedial measures recommended by him will be conducive of satisfactory results.

4. Much remains to be done yet in the direction of veterinary aid for the ordinary care of animals in the mufassal. But it is gratifying to note that increasing interest is being evinced by local bodies in the matter of establishment of hospitals and dispensaries. Credit is also due to the public at Dimla in Rangpur district where a dispensary building has been erected for the first time almost entirely with local contributions.

5. The Bengal Village Self-Government (Amendment) Act, 1931, which has been recently passed by the Legislative Council has removed the long-felt disability under which the union boards laboured due to their inability to undertake work for the prevention and treatment of cattle diseases or for the improvement of the breed and health of cattle. The union boards are a valuable agency for affording veterinary aid in the mufassal, and it is hoped that they will now take up the matter in right earnest, so far as their financial resources derived from the rate under section 37 (*b*) of the Act permit.

6. The Minister-in-charge notes with pleasure the names of the officers who did good work during the year and also desires to acknowledge the services rendered by Mr. Kerr.

II.—Bengal Veterinary College.

7. In spite of the withdrawal of Bihar and Orissa students from the college as a result of the opening of the Patna Veterinary College and other counter-attractions, there was no diminution in the number of entrants into the college which continued to attract students from far and wide. The Bengal students topped the list, being 35 per cent. of the total. The number of stipends granted by district boards, however, continued to be poor; but it is hoped that the appeal made to them by the Principal will meet with ready response.

8. The Principal's report contains an interesting account of the work undertaken to enhance the usefulness of the institution as a centre for the spread of veterinary knowledge. Extension lectures and practical studies in meat and milk inspection and the elements of genetics, dairy-farming and poultry-keeping were introduced during the year. Extra classes for the training of sanitary inspectors, compounders, etc., have also been provided. A scheme for a refresher course of training of veterinary assistant surgeons and veterinary graduates is now under consideration in consultation with local bodies. Financial stringency has unfortunately stood in the way of inception of various schemes of veterinary activity prepared by the Principal.

9. On the other hand, it is gratifying to note that every effort has been made to effect economy in expenditure as far as practicable without impairing the efficiency of the institution. The supply of fodder raised in the college compound has enabled an appreciable reduction in the cost of feed of animal patients at the hospital, whilst the receipts from the sale of surplus stock to the public added to the income.

10. The Minister-in-charge is pleased to record his appreciation of the interest and energy shown by Mr. A. D. MacGregor in the administration of the college. He is also pleased to acknowledge the ungrudging services rendered by the non-official members of the committee of management.

Jurisdiction of Special Tribunals.

25. Where in the opinion of the Local Government there are reasonable grounds for believing that any person has committed a scheduled offence in furtherance of or in connection with the terrorist movement, it may, by order in writing, direct that such person shall be tried by a Special Tribunal.

Procedure of Special Tribunals.

26. (1) A Special Tribunal may take cognizance of offences without the accused being committed to it for trial and, in trying accused persons, shall follow the procedure prescribed by the Code for the trial of warrant cases by Magistrates:

Provided that the Special Tribunal shall make a memorandum only of the substance of the evidence of each witness examined, and

shall not be bound to adjourn any trial for any purpose unless such adjournment is, in its opinion, necessary in the interests of justice.

(2) In matters not coming within the scope of sub-section (1), the provisions of the Code, so far as they are not inconsistent with this Chapter or the rules made thereunder, shall apply to the proceedings of a Special Tribunal; and, for the purposes of the said provisions, the Tribunal shall be deemed to be a Court of Session.

Special Magistrates.

29. Any Presidency Magistrate or Magistrate of the first class who has exercised powers as such for a period of not less than four years may be invested by the Local Government with the powers of a Special Magistrate under this Ordinance.

Jurisdiction of Special Magistrates.

30. Where, in the opinion of the Local Government, or of the District Magistrate if empowered by the Local Government in this behalf, there are reasonable grounds for believing that any person has committed a scheduled offence not punishable with death, or an offence punishable under this Ordinance, the Local Government or District Magistrate, as the case may be, may, by order in writing, direct that such person shall be tried by a Special Magistrate.

Procedure of Special Magistrates.

31. (1) In the trial of any case under this Ordinance, a Special Magistrate shall follow the procedure laid down in sub-section (1) of section 26 for the trial of cases by a Special Tribunal:

Provided that such Magistrate may, in trying any offence punishable under this Ordinance, follow the procedure prescribed in the Code for the summary trial of cases where no appeal lies.

(2) In matters not coming within the scope of sub-section (1), the provisions of the Code, so far as they are not inconsistent with this Chapter, shall apply to the proceedings of a Special Magistrate; and for the purposes of the said provisions the Special Magistrate shall be deemed to be a Magistrate of the first class.

Appeals.

33. (1) Where a Special Magistrate passes a sentence of transportation or imprisonment for a term exceeding two years, or of fine exceeding one thousand rupees, an appeal shall lie to the Special Tribunal constituted for the area in which the offence was tried:

Provided that where no Special Tribunal has been so constituted, the appeal shall lie to the Court of Session, unless the Special Magistrate passes a sentence of transportation exceeding two years or a sentence of imprisonment exceeding four years, in which case the appeal shall lie to the High Court.

(2) An appeal under sub-section (1) shall be presented within seven days from the date of the sentence.

(3) In disposing of an appeal under this section, a Special Tribunal shall follow the same procedure and shall have the same powers as an Appellate Court follows and has under the Code.

Retrospective effect of direction under sections 25 and 30.

34. No direction shall be made under section 25 or section 30 for the trial of any person by a Special Tribunal or Special Magistrate, for an offence for which he was being tried at the promulgation of this Ordinance before any Court, but, save as aforesaid, a direction under either of the said sections may be made in respect of any person accused of a scheduled offence, whether such offence was committed before or after the promulgation of this Ordinance.

Power to convict for offence proved.

35. If in any trial under this Chapter it is found that the accused person has committed any offence, whether such offence is or is not a scheduled offence, the Court may convict such person of such offence and pass any sentence authorised by law for the punishment thereof.

Power to exclude persons or public from precincts of Court.

36. The President of a Special Tribunal or a Special Magistrate may, if he thinks fit, order at any stage of a trial that the public generally, or any particular person, shall not have access to, or be or remain in, the room or building used by the Court:

Provided that where in any case the Advocate-General certifies in writing to the Court that it is expedient in the interests of the public peace or safety or of the peace or safety of any of the witnesses in the trial that the public generally should not have access to, or be or remain in, the room or building used by the Court, the President or Court, as the case may be, shall order accordingly.

Powers of Special Courts to deal with refractory accused.

37. (1) Where any accused, in a trial before a Court constituted under this Chapter, has, by his voluntary act, rendered himself incapable of appearing before the Court, or resists his production before it, or behaves before it in a persistently disorderly manner, the Court may, at any stage of the trial, by order in writing made after such inquiry as it may think fit, dispense with the attendance of such accused for such period as it may think fit, and proceed with the trial in his absence.

(2) Where a plea is required in answer to a charge from an accused whose attendance has been dispensed with under sub-section (1), such accused shall be deemed not to plead guilty.

(3) An order under sub-section (1) dispensing with the attendance of an accused shall not affect his right of being represented by a pleader at any stage of the trial, or of being present in person if he has become capable of appearing, or appears in Court and undertakes to behave in an orderly manner

(4) Notwithstanding anything contained in the Code, no finding, sentence or order passed in a trial before a Court constituted under this Ordinance shall be held to be illegal by any Court by reason of any omission or irregularity whatsoever arising from the absence of any or all of the accused whose attendance has been dispensed with under sub-section (1).

Special rule of evidence.

38. Notwithstanding anything contained in the Indian Evidence Act, 1872, when the statement of any person has been recorded by any Magistrate, such statement may be admitted in evidence in any trial before a Court constituted under this Ordinance if such person is dead or cannot be found or is incapable of giving evidence, and the Court is of opinion that such death, disappearance or incapacity has been caused in the interests of the accused. I of 1872.

By order of the Governor in Council.

E. N. BLANDY,
Secy. to the Govt. of Bengal.

Regulations Governing Procedure for the Commutation of Pensions of officers mentioned in Rule 3 of the Government of India's notification of 1926 who are under the Administrative Control of the Governor in Council, excluding those recruited from the bar or promoted permanently from the Provincial Services to services enumerated in Schedule I of the Classification Rules of 1930.

1. An application for commutation of pension should be made in Part I of Form A appended to these regulations and addressed:—

(1) If the applicant is still in service, or has retired but his pension has not yet been sanctioned, to the authority competent to sanction his pension;

(2) otherwise, to that authority through the proper Account Officer who is:—

(a) in the case of a pensioner who draws his pension in India, the Account Officer of the province in which the treasury from which the pensioner draws his pension is situated;

NOTE.—If the pensionary charge is adjustable in the books of a different Account Officer, the Account Officer who receives the application should transmit it forthwith to that officer.

(b) in the case of a pensioner who, being resident in a Colony having an account current with the Accountant-General, Central Revenues, draws his pension from the local treasury, the Account Officer who issued the authority for payment of the pension in the Colony.

2. The application it addressed to the authority specified in regulation 1 (1) should be transmitted forthwith to the Account Officer who is reporting on the title to pension.

3. The Account Officer should complete Part II of Form A without delay and transmit it, together with copies of the medical reports mentioned in the concluding portion of regulation 5 (*ii*), if they are on record in his office, to the authority competent to sanction the commutation, whether that authority is correctly named in Part I or not.

4. The authority competent to sanction commutation should thereupon accord his administrative sanction in Part III of Form A, and arrange for the medical examination of the applicant.

NOTE.—If the Account Officer's certificate in Part II shows that the commutation charge falls partly on a Provincial Government, which has stipulated that it should be consulted regarding availability of funds the sanctioning authority must obtain that Government's consent before he accords administrative sanction.

5. The sanctioning authority should then:—

(i) Transmit to the applicant on Form B, a certified copy of the Account Officer's certificate contained in Part II of Form A, and one copy of Form C, Part I of which is to be filled in by the applicant before his medical examination and handed to the medical authority; and

(ii) forward to the medical authority in original the completed Form A, together with a copy of Form C; and, if the applicant has been granted an invalid pension or has previously commuted any portion of his pension with years added to his actual age, copies of the previous medical reports or statements of his case.

6. (i) Before any commutation administratively sanctioned becomes absolute, the applicant must be examined by a medical board, to be named in the order, before which the applicant must appear in person.

(ii) The medical authority after obtaining from the applicant a statement in Part I of Form C (which must be signed in its presence) shall subject him to a strict examination, enter the results in Part II of Form C and record its opinion as to the accuracy with which the pensioner has answered the questions prescribed in Part I regarding his medical history and habits. Lastly it shall complete the certificate contained in Part III of Form C.

(iii) In the case of an applicant who has been or is about to be granted an invalid pension, the grounds of invaliding or the statement of the medical case shall be duly considered by the certifying medical authority before the certificate (Part III of Form C) is signed. The Medical Board shall without delay forward the completed Forms A and C in original to the Account Officer, who gave the certificate contained in Part II of Form A, a certified copy of the completed Form C to the sanctioning authority, and a certified copy of Part III of Form C to the applicant.

(iv) The applicant shall pay a fee of Rs. 16 into a Government treasury and make over the receipt to the Board before examination.

7. The Accountant-General on receipt of the completed Forms A and C shall arrange forthwith for the payment of the appropriate commuted value and for the corresponding reduction of pension provided the Medical Board gives a satisfactory medical certificate.

NOTE.—If the medical certificate prescribes that more than five years should be added to the applicant's actual age, the Account Officer shall forthwith inform the applicant of the revised sum payable on commutation.

8. If a pensioner after he has once been rejected on the recommendation of the medical authority as not being a fit subject for commutation, or after he has once declined to accept commutation on the basis of an addition of years to his actual age, applies for permission to appear for medical examination with a view to the revision of the original finding of the medical authority, one re-examination will be allowed at his own cost provided that:—

(1) an interval of not less than a year shall elapse between the date of the first medical examination and that of the second; and

(2) the second examination shall invariably be made by a medical board.

When such re-examination is allowed a copy of the report of the first examination should always be forwarded to the medical authority examining him second time.

RESOLUTION No. 6417F.B.

Calcutta, the 21st November 1931.

1. The Civil Pensions (Commutation) Rules and the amendment to them made by the Secretary of State for India in Council, in exercise of the powers conferred by sub-sections (*2*) and (*3*) of section 96B of the Government of India Act are published herewith for general information as an annexure to this Resolution.

2. These rules supersede the rules published in the Resolution No. 1283F.B., dated the 8th March 1927, and will be applicable to Government servants, who are not included in the appendix referred to in rule 3, made by the Secretary of State.

3. The Local Government are the sanctioning authority for applications for commutation of pension of those officers who at the time of retirement were under their administrative control.

Note.—A Pensioner should be considered to be under the administrative control of the Government on which the payment of his pension forms a charge and not the Government which originally sanctioned his pension. Where, however, an application for commutation is made simultaneously with the application for pension, the Government under which the applicant is employed will be the Government competent to sanction the commutation.

4. In so far as such Government servants are concerned, the Local Government have—

(*1*) delegated their powers to the High Commissioner under rule 2 subject to the condition mentioned in (2) below where applicable,

(*2*) decided to allow commutation up to a maximum of one-half of the pension of those officers to whom rule 4 applies and to impose under that rule for such officers the following condition:

that the residue of the pension which will be left after commutation will be sufficient to maintain the pensioner in accordance with his station in life in retirement.

(*3*) (I) (*i*) Before the commutation of a pension is sanctioned, the pensioner shall produce a certificate as to his expectation of life from the certifying medical authority hereinafter prescribed.

(*ii*) The medical authority shall be:—

(*a*) In the case of an applicant who has been or is likely to be invalided from the service, a Special Medical Board;

(*b*) in case of a pensioner drawing a pension of Rs. 50 and less, a medical officer of not lower standing than a Civil Surgeon, District Medical Officer or Presidency Surgeon; the sanctioning authority may at its discretion require the production of a second medical certificate or direct the pensioner to appear before a Medical Board;

Note. In case, however, where the Medical Officer adds to the age of the pensioner for purpose of commutation, the pensioner should invariably be directed by the sanctioning authority to appear before a Medical Board.

(*c*) in case of a pensioner drawing a pension of over Rs. 50, a Medical Board before which the applicant must appear in person with a certificate signed by a medical officer of not lower standing than a Civil Surgeon, District Medical Officer or Presidency Surgeon.

(II) The certifying medical authority after obtaining from the applicant a statement in Part I of Form B (appended to this Resolution) which must be signed in his presence, shall subject him to strict examination, enter the results in Part II of Form B and record his opinion as to the accuracy with which the pensioner has answered the questions prescribed in Part I regarding his medical history and habits. Lastly he shall complete the certificate contained at the end of Part II of Form B and forward it to the sanctioning authority.

(III) The certificate granted by the certifying medical authority will then be forwarded by the sanctioning authority to the Standing Board which will complete the certificate in Part III of Form B.

(IV) In the case of a pensioner drawing an invalid pension who shall have to appear before a Special Medical Board, the Certifying Board after obtaining from the applicant a statement in Part I of Form B (appended to this Resolution) which must be signed in its presence, shall subject him to strict examination, enter the results in Part II of Form B and record its opinion as to the accuracy with which the pensioner has answered the questions in Part I regarding his medical history and habits. Lastly it shall complete the certificate in Part III of Form B and forward it to the sanctioning authority.

(V) If a persioner after he has once been rejected on the recommendation of the medical authority as not being a fit subject for commutation, or after he has once declined to accept commutation on the basis of an addition of years to his actual age, applies for permission to appear for medical examination with a view to the revision of the original finding of the medical authority, one re-examination will be allowed at his own cost provided that:—

(1) an interval of not less than a year shall elapse between the date of the first medical examination and that of the second; and

(2) the second examination shall invariably be made by a medical board.

When such re-examination is allowed a copy of the report of the first examination should always be forwarded to the medical authority examining him second time.

5. In accordance with rule 7, the Governor-General in Council has been pleased to prescribe the table contained in annexure B to this Resolution in the case of pensioners whose applications are addressed to the Local Government.

6. (*a*) The applicant shall himself pay the medical officer's fee for examination; when

a second medical opinion is required or the applicant is directed to appear before a Medical Board the examination will be made free of charge by medical officers at the request of the Local Government.

(*b*) In case of a pensioner drawing an invalid pension, who shall have to appear before a Special Medical Board, the applicant shall deposit a fee of Rs. 16 into a Government treasury and make over the receipt to the Board before examination.

7. The incidence of the commutation payment will in all cases follow that of the pension, and the commuted amount must be made payable at the treasury at which the pension is being or is to be drawn. If a pensioner who has obtained commutation of a portion of his pension moves thereafter to another province, a note must be made on the Pension Payment Order as to the amount of pension which has been commuted.

8. All sanctions to the commutation of a pension which is voted are subject to the usual rule that the expenditure can be met from sanctioned budget grant.

9. Applications must be in Form A appended to this Resolution and may be made simultaneously with the application for pension.

10. Commutation, when sanctioned, shall take effect from a date, to be named in the order, which will ordinarily be about one month later than the date of the order; and all calculations shall be made with reference to that date. Payment of the commuted portion of the pension will cease from the date specified and the sum payable on commutation will be paid on that date or as soon afterwards as possible.

Note.—In special cases the Local Government may sanction the commutation with effect from an earlier date than that mentioned in this paragraph not preceding the date of the sanction, all calculations being made with reference to such earlier date.

11. In the case of a pensioner who is re-employed in Government service or in the service of a Local Fund and who commutes a portion of his pension before or after such re-employment, his pension, for the purposes of the rules in Chapter XXI of the Civil Service Regulations, shall be taken at the full amount which he might have drawn if he had not commuted a portion of it.

Ordered that the Resolution be published in the *Calcutta Gazette*.

Ordered also that a copy of the Resolution be forwarded to the Accountant-General, Bengal, and to the several departments, including Accounts Department of this Government; the Secretary to the Board of Revenue, Bengal; Director of Public Instruction, Bengal; Surgeon-General with the Government of Bengal; Inspector-General of Police, Bengal; Inspector-General of Prisons, Bengal; Superintending Engineers; Commissioners of Divisions; District Officers; District and Sessions Judges; Conservators of Forests, Bengal; Commissioner of Excise and Salt, Bengal; Director of Agriculture, Bengal; Director of Land Records and Surveys, Bengal; Advocate-General, Bengal; Director of Public Health, Bengal; Inspector-General of Registration, Bengal; Commissioner of Police, Calcutta; Superintendent and Remembrancer of Legal Affairs, Bengal; Chief Judge, Small Cause Court, Calcutta; Private Secretary to the Governor of Bengal; Military Secretary to the Governor of Bengal; Administrator-General and Official Trustee, Bengal; Registrar of Co-operative Societies, Bengal; Chief Presidency Magistrate, Calcutta; Chief Engineer, Public Health Department, Bengal; Nautical Surveyor, Chittagong; Superintendent, Royal Botanic Garden, Calcutta; Veterinary Advisor to the Government of Bengal; Coroner of Calcutta; Municipal Magistrate, Calcutta; Superintendent, Government Printing, Bengal; Press and Forms Manager, Bengal; Director of Industries, Bengal; and Chief Inspector of Factories, Bengal, for information.

1—(*a*) These rules may be called the Civil Pensions (Commutation) Rules.

(*b*) They shall be deemed to have come into force on 1st April 1925.

2. The powers granted by these rules shall be exercised, in relation to Government servants who are under the administrative control of a local Government, by the local Government, and in relation to other Government servants by the Governor-General in Council, and may be delegated by them to the High Commissioner for India, subject to any condition which they may think fit to impose.

3. A Government servant who is a member of one of the services or holds one of the posts included in the appendix to these rules shall be entitled, subject to the conditions hereinafter specified, to commute for a lump payment any portion, not exceeding one-half, of any pension which has been or may be granted to him under civil rules. But any such commutation shall be subject to the condition that—

(*a*) if the pension exceeds £180 when payable in London, or Rs. 2,057 when payable in India, not less than £150 (or Rs. 1,714) of its value shall remain uncommuted; and

(*b*) if the pension is less than £180 (or Rs. 2,057), not more than £30 (or Rs. 343) of its value shall be commuted, and not less than £120 (or Rs. 1,371) shall remain uncommuted:

Provided that the sanctioning authority may at its discretion relax or waive this condition in the case of a pension granted under the Premature Retirement Rules.

Provided further that in calculating the amount of a pension for the purposes of conditions (*a*) and (*b*) of this Rule, there may be added to it the uncommuted portion of any other permanent pension or pensions payable to the applicant from Indian or other Government revenues.

4. On the application of any Government servant to whom Rule 3 does not apply the sanctioning authority may on such conditions as it thinks fit to impose, sanction the commutation for a lump payment of a portion, not exceeding one-half, of any pension which has been or is about to be granted to him under civil rules.

6. No commutation shall be sanctioned until the pensioner has produced a certificate from such medical authority as may be prescribed in this behalf by the sanctioning authority to the effect that his bodily health and prospects of duration of life are such as to justify commutation.

7. The lump sum payable on commutation shall be calculated in accordance with a table or tables of present values which shall be prescribed by the Governor-General in Council in the case of pensioners, whose domicile at the time of first appointment to Government service was Asiatic and by the Secretary of State in Council in all other cases. No. F./2-XVI-R. II./1930, dated Simla, the 22nd October 1930.

Notification—By the Government of India, Finance Department.

The following resolution by the Secretary of State for India in Council is published for general information:—

In exercise of the powers conferred by subsection (*2*) of section 96B of the Government of India Act, the Secretary of State with the concurrence of the majority of votes at a Meeting of the Council of India held this 20th day of August 1930 hereby makes the following amendments in the Civil Pensions (Commutation) Rules, namely:—

(I) For Rule 6 of the said Rules the following shall be substituted, namely:—

"6. The following provisions apply to Government servants governed by Rule 3.

(1) On receipt of an application for commutation the sanctioning authority shall transmit to the applicant a copy of the Account Officer's certificate of the lump sum payable on commutation in the event of his being reported by such medical board as the sanctioning authority may prescribe to be a fit subject for commutation; and shall at the same time instruct him to appear for examination before the said board within three months from the date of its order, or, if he has applied for commutation in advance of the date of his retirement, within three months of that date but in no case earlier than the actual date of retirement. This intimation shall constitute administrative sanction to commutation, but shall lapse if the medical examination does not take place within the period prescribed in the sanctioning order. The applicant may withdraw his application by written notice at any time before the medical examination takes place, but this option shall expire on his appearance before the medical board.

Provided that if the medical board directs that his age for the purpose of commutation shall be assumed to be greater than his actual age, the applicant may withdraw his application within two weeks from the date on which he receives intimation of the revised sum payable on commutation, or, if this sum is already stated in the sanctioning order, within two weeks from the date on which he is informed of the finding of the medical board.

If the applicant does not withdraw in writing his application within the period of two weeks prescribed above, he shall be assumed to have accepted the sum offered.

(2) Subject to the provision contained in clause (*3*) of this rule the commutation shall become absolute, that is, the title to receive the commuted portion of the pension shall cease and the title to receive the commuted value shall accrue, in the case of an unimpaired life on the date on which the medical board signs the medical certificate; and, in the case of an impaired life, on the date of written acceptance of the commutation, or the date on which the option of withdrawing the application expires, whichever is earlier. Payment of the commuted value shall be made as expeditiously as possible, but whatever the date of actual payment, the amount paid and the effect upon the pension shall be the same as if the commuted value were paid on the date on which commutation became absolute. If the commuted portion of the pension has been drawn after the date on which the commutation became absolute, the amount drawn shall be deducted from the amount payable in commutation.

(3) If the applicant makes any statement found to be false within his knowledge or wilfully suppresses any material fact in answer to any question, written or oral, put to him in conection with his medical examination, the Local Government may cancel the sanction at any time before payment is actually made; and such a statement or suppression may be treated as grave misconduct for the purpose of Article 351 of the Civil Service Regulations."

(II) Rule 8 of the said Rules shall be omitted.

(III) For Rule 10 of the said Rules, the following shall be substituted, namely:—

"10. If the pensioner dies on or after the day following that on which commutation became absolute but before receiving the commutation, value, this value shall be paid to his heirs."

CALCUTTA, THE 27TH NOVEMBER 1931.

RESOLUTION—No. 14105L.R.

Read—

Letter No. 33 R. C. T., dated the 14th September 1931, from the Commissioner of the Rajshahi Division, submitting a final report on the relief operations in the district of Bogra during the period October 1930 to July 1931.

The report deals with the operations for the relief of distress which prevailed in the district of Bogra during a period of about ten months from October 1930 to before the floods of July 1931. The district consists of two distinct areas—one is known as the Khiar area and the other known as the Pali, or alluvial area. Jute is the most important crop in the Pali area and during the year under report jute was grown in abundance in this area, but the price was very low. The people of this area were affected not only by the fall in the price of jute but also by the flood which damaged the aman crop in September 1930. The outturn of the aman and *bhadoi* crops in the Khiar area was affected by want of rain at certain times and excess of rain in the autumn.

2. Out of the total area of the district, viz., 1,359 square miles, an area of 215 square miles, with a population of 160,974, was seriously affected in the Pali tract and an area of 103 square miles, with a population of 86,381 was affected slightly in the same tract. In the Khiar tract an area of 185 square miles, with a population of 92,856, was slightly affected. It is estimated that the aman crop in the seriously affected area was damaged to the extent of 14 annas and that the outturn of the aman and *bhadoi* crops in the slightly affected area was reduced by about one-third.

3. The duration and degree of distress were not however such as to necessitate, at any stage of the operations, the declaration of scarcity or famine under section 74 of the Bengal Famine Code. There was no shortage of food-grains. The distress was the result of the poverty to which the cultivating classes were reduced owing to the destruction of crops by floods and the low price of jute. The passing of the Sarda Act was also a contributory cause as there had been considerable expenditure on celebrating marriages shortly before the Act came into force.

4. Relief measures were promptly undertaken by Government and the district board. The main forms of relief consisted of:—

(*a*) Gratuitous relief.

(*b*) Test relief works.

(*c*) Agricultural loans.

Gratuitous relief.—Gratuitous relief was given, chiefly in the shape of cash. Doles of rice and paddy were also given. The amount spent on gratuitous relief was Rs. 1,536.

Test relief.—Test relief works consisted of the construction and repair of roads. About 37 miles of new kutcha roads were made and about 66 miles of old roads improved by employing 79,386 units at a total cost of Rs. 18,889-8. The daily average wages of each unit were As. •3-10. Government advanced Rs. 10,500 to the district board for carrying out test relief works.

Agricultural loans.—The distribution of agricultural loans began in the middle of November 1930 and lasted up to June 1931. Within this period a sum of Rs. 1,05,000 was distributed as agricultural loans, including *rabi* seeds worth Rs. 4,824.

5. The Divisional Commissioner, Mr. J. G. Drummond, inspected part of the affected tract in April 1931 and saw some members of the Hatsherpur and the Sariakandi Relief Committees. He was satisfied that the daily wages (three annas per head) paid to test relief workers on the district board road at Hatsherpur were neither too high nor too low. The Governor in Council is satisfied that the measures taken for relief of distress were successful and adequate. He desires to record his appreciation of the good work done by Rai Anath Bandhu De Bahadur, the Collector, and his staff, by the district board and by the Relief Committees.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 3157L.—27th November, 1931.—The following report of the Select Committee on the Bengal Motor Vehicles Tax Bill, 1931, with the Bill as amended by the Committee, is hereby published for general information :—

Report of the Select Committee on the Bengal Motor Vehicles Tax Bill, 1931.

We, the Select Committee to which the Bengal Motor Vehicles Tax Bill, 1931, was committed by a motion carried in the Bengal Legislative Council on the 21st July, 1931, have the honour to submit this our report together with the Bill as amended by us annexed thereto. All matter omitted by us has been printed in italics and enclosed in square brackets and all new matter has been underlined.

The Committee held five meetings, namely, on 17th, 18th, 19th and 31st August, and 1st September, 1931, and examined two witnesses. The views of the Corporation of Calcutta were ascertained and considered.

The Bill was published in English in the *Calcutta Gazette* on the 28th May, 1931.

We consider that the Bill has not been so altered as to require republication.

We recommend that the Bill as now amended be passed.

The principal changes made in the Bill with the reasons therefor are set out hereafter.

Preamble.—We have inserted the word " additional " to stress what we consider the object of the Bill to be, namely to obtain funds in addition to those already available for expenditure on roads. We have inserted two words in the opening phrase of clause 11 and have added a sub-clause to that clause to emphasise the intention of the Bill that any funds derivable from it are to be treated as an addition to available resources.

Clause 3.—Though we have made no change in this clause, considering that it was undesirable to fetter the discretion of the Local Government, we were generally of opinion that Police officers in the mufassal should not be appointed as Taxing officers.

Clause 4.—We have omitted sub-clause (*ii*) of the proviso, in the view that the concession there granted is superfluous. We have however inserted a provision on the lines of section 167 of the Calcutta Municipal Act, 1923, for remission or refund of the tax for portions of a quarterly period during which the vehicle has not been kept or used.

Clause 5.—The omission of the four words " of the total amount " makes it clear that only the last payment shall be refunded.

Clause 6.—The addition in sub-clause (*1*) has been made in view of the wording of clause 13(*b*). The addition in sub-clause (*3*) is intended to avoid interfering with the existing state of affairs in which a hire-purchaser, though not the owner of a vehicle held by him in the hire-purchase system is liable to pay the tax for the vehicle under the Calcutta Municipal Act, 1923. The hire-purchaser is now liable as the person who keeps and uses the vehicle.

Clause 8.—We consider this concession unnecessary, and have omitted the clause.

Clause 9A.—We have inserted provisions for the compulsory carrying on a vehicle of a token affording visible proof that the tax has been paid.

Clause 10.—We have altered the sum to be paid to the Corporation of Calcutta to four and a half lakhs in view of the amount shown by the latest figures available as that actually received at present by that body from the taxation of motor vehicles.

Clause 11.—Reference has already been made to our reasons for altering this clause. The explanation makes it clear that the building of a bridge without actual road construction may be undertaken out of the fund.

Clause 12.—The alterations are consequential on the new clause 9A.

Clause 13.—The clause has been revised to bring it into harmony with the wording of the new clause 13A.

Clause 13A.—This clause supplies a penalty for breaches of the provisions of the Bill not already penalized by clause 13.

The First Schedule.—We have revised the rates of taxation with a view to make the scale more regularly graduated, and in the case of the larger passenger carrying vehicles to lighten the rate of taxation.

NOTE OF DISSENT BY HON'BLE MR. B. P. SINGH ROY AND MR. C. W. GURNER, I.C.S.

With reference to clause 10 we should prefer to see some provision for periodical revision of the amount to be paid to the Calcutta Corporation after the expiry of a certain term of years.

NOTE OF DISSENT BY MESSRS. C. G. COOPER AND G. R. DAIN.

While not entirely in agreement with certain clauses of the Bill itself we have signed the report as being at best a workable compromise. We are, however, in entire disagreement with certain of the rates of taxation included in the first schedule attached to the Bill.

We do not approve of the taxation of motor cars on their seating capacity, firstly, on the ground that it is wrong in principle and, secondly, it introduces most extraordinary anomalies. To take a single instance apparently a Rolls Royce (2 seater) would pay less in taxation than a Baby Austin. We consider that taking into account the taxation proposed to be levied on lorries and omnibuses the ordinary car is let off too lightly, in view of the fact that the owner of a private car makes use of a very much larger area of the highways than the person who uses a public service.

The present charges are small compared with those levied in England and are on an entirely lower scale than those recently included in the Madras Act, No. III of 1931. It is for this reason that we advocated before the Select Committee a charge based on the over-all area occupied by a car which seems an entirely logical arrangement. We suggested Rs. 2-8 per square feet for the smaller cars occupying up to say 50 square feet and Rs. 3-8 per square feet for the larger, alternatively wheel base or chassis weight according to the manufacturer's specification.

We emphasized in Committee that every possible opportunity should be taken of endeavouring to bring about an arrangement under which the taxes, etc., paid by motor vehicles are standardised throughout India, and we consider that no motor vehicle should be subjected to more than one provincial tax in any one year.

Government accepting this view argued it was for this reason they accepted the basis of seating capacity in order to be uniform with Bihar and Orissa, but we do not consider it right that Bengal should perpetuate the wrong of Bihar and Orissa, especially as the basis of seating capacity is *not* uniform for India, Madras having adopted the basis of weight.

In regard to the charges levied on goods vehicles the basis of unladen weight was accepted by us simply as a compromise, but we consider it should be regarded as temporary as it is quite possible that it may re-act against certain motor manufacturing interests in much the same way as the horse-power tax did. Our idea is that it may tend to the introduction of a vehicle in reality too light for the hard work involved out here.

The following comparative figures speak for themselves :—

Vehicles fitted entirely with pneumatic tyres.	Annual rate of tax.		
	Madras.	Bihar and Orissa.	Bengal (As proposed by Select Committee.)
	Rs.	Rs.	Rs.
1½ ton Lorry (weight unladen)	500	100	175
2½ ton Lorry (weight unladen)	800	150	200
5 ton Lorry (weight unladen)	1,000	300	300
Taxi	160	75	75
20-seater Bus	800	110	55
30-seater Bus	1,200	132	105
45-seater Bus	1,800	345	180
Private car (30 cwt. weight 4-5 seater) ..	100	40	50

NOTE OF DISSENT BY MR. D. J. COHEN, M.L.C.

I sign the report subject to the following note of dissent :—

I do not agree with the recommendation of the Select Committee making the annual payment to the Calcutta Corporation a fixed annual sum. I am of opinion, having regard to the obligation of the Corporation to spend a large and an increasing amount on the maintenance and development of roads for the ever increasing number of motor vehicles, the annual payment should be revised triennially and a fair proportion of the increased income should be made over to the Corporation in addition to the payment of 4½ lakhs of rupees inserted in the Bill.

NOTE OF DISSENT BY KHAN BAHADUR MUHAMMAD ABDUL MOMIN, M.L.C.

I dissent from the majority with regard to the principle of assessment as laid down in Schedule First, Part II (Private Cars). I think an assessment on seating accommodation without considering the horse-power or value of car will tell heavily on the middle-class people who keep cars more for business than pleasure. A wealthy man who own a Rolls Royce will pay the same tax as a Ford owner.

NOTE OF DISSENT BY MR. P. N. GUHA, M.L.C.

In my opinion a grave injustice has been done to the Calcutta Corporation by fixing the annual contribution to that body to the sum of four lakhs and a half for all time to come. [*Vide* Clause 10 (*1*)]. The number of motor vehicles is increasing in Calcutta by leaps and bounds every year and it does not require any great imagination to realise that the revenue derivable from vehicles plying in the public thoroughfares under the jurisdiction of the Corporation of Calcutta will in the very near future largely exceed the sum fixed. Such excess revenue should, in all fairness, be credited to the Corporation. In this connection the fact should not be overlooked that the Calcutta Corporation is not likely to be helped out of the funds of the Road Board at any time for the upkeep of the roads under its jurisdiction. Consequently there is no justification for depriving Calcutta of the legitimate revenue that may be realised from the motor vehicles plying in its streets. I hold that the question of payment to the Calcutta Corporation should be adjusted, if not every year, certainly at the end of every three years and it should be annually paid approximately the net amount realised from the motor vehicles plying in the streets of Calcutta.

CALCUTTA, THE 28TH NOVEMBER 1931.

RESOLUTION—No. 7004 Ind.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

Read—

The Annual Administration Report of the Department of Industries, Bengal, for the year 1930-31.

Mr. A. T. Weston held charge of the department during the year under review except for the period of his absence on leave when the charge was held by Khan Bahadur Maulvi Abdul Jalil Khan, Deputy Magistrate and Deputy Collector.

General remarks.—The scope of the Industries Department in Bengal is limited to the development of industries with particular reference to home or small scale industries and of technical and industrial education. The department is also responsible for research and investigation into the possibilities of improving the equipment for small industries and of using the natural resources of the province for industrial purposes.

Owing to financial stringency new schemes of development, ripe for effective action, had to be curtailed or abandoned whilst the work of demonstration of the results obtained in the Chemical and Engineering sections had to be rigorously restricted.

Further the economic situation caused by the world-wide trade depression, resulted in an abnormal fall in the price level of commodities attended with a shrinkage in demand. The circumstances, therefore, were far from encouraging to industrial enterprise.

Industrial Chemist's Department.—The research work in the Chemical section was mainly concerned with the utilisation of certain indigenous oils such as Punnal oil (*Calophyllum Inophyllum*), Rayna oil (*Amoora Rohituka*), Karanja oil (*Pongamia Glabra*), Kusum oil (*Schleichera Trijuga*), Neem oil (*Melia Azadirachta* or Margosa oil) and Bheranda oil (*Jatropha Curcas*) for industrial purposes. Bulletins for the use of some of the oils in soap-making, etc., have been published. Experiments were also carried out in connection with the manufacture of soap. Demonstration of soap manufacture was conducted in the Kurigram subdivision of Rangpur district and in Malda and Noakhali towns. A number of apprentices were also trained at the Industrial Research Laboratory, and it is interesting to note that some of the apprentices were enabled to take up work in soap factories.

Industrial Engineer's Department.—In this section the problem relating to the development and improvement of cottage craft and small industries engaged special attention. The main lines of work are the collection of industrial and commercial information, survey of small and cottage industries, designing and construction of labour-saving devices, demonstration of improved methods, etc. The work in this section was as elsewhere handicapped owing to want of funds; but certain experiments for the improvement of the indigenous cutlery industry and for evolving improved methods for the artificial drying of boiled paddy were carried out and satisfactory results obtained.

Bengal Tanning Institute.—In spite of the gloomy outlook of the leather trade, the low price of hides proved an incentive to small tanners and the Calcutta tanneries had a large share in the manufacture of cheap leather. The investigations carried out at the Bengal Tanning Institute and the technical knowledge in tanning processes disseminated by the Institute were of great assistance to the industry.

The training of apprentices in the modern methods of tanning at the Institute also received special attention. The effort made in the previous year to train a limited number of apprentices in the boot, shoe and leather goods trade was further consolidated. Of the first

batch of seven students who completed the course during the year, five passed the examination and two of them started business of their own.

Demonstrations of improved methods of tanning held in different parts of the province gave an incentive to a number of young men to start tanneries on a small scale.

Technical education including weaving education.—Technical education in all its branches including weaving education continued to receive attention. The Calcutta Technical School and the Kanchrapara Technical School continued to do useful work while the Central Weaving Institute at Serampore with the outlying district and peripatetic weaving schools continued to consolidate the efforts made to introduce weaving as a subsidiary industry. It is satisfactory to note that as a result of the operation of the scheme for the supply, through the agencies of demonstration parties and peripatetic weaving schools, of effective weaving appliances to the village weavers, charging them the actual cost price of the articles which are manufactured locally, six hundred and eighty appliances worth Rs. 7,692 were introduced in the various districts of the province during the year under review.

A State Technical Scholarship for a course of theoretical and practical training in waterproofing of fabrics was awarded during the year.

During the year, the Bengal State Aid to Industries Bill, the object of which is to obtain statutory power to enable State aid to be given mainly for the purpose of encouraging cottage industries and industries on a small scale, in the shape of loans, guarantees, the provision of hire-purchase system, etc., was introduced into the Legislative Council, and has since become law.

Acknowledgments.—The Government of Bengal (Ministry of Industries) have pleasure in recording their appreciation of the manner in which the work of the department was conducted by Mr. A. T. Weston, Khan Bahadur Maulvi Abdul Jalil Khan and the superior staff of the department. The Minister in charge also takes this opportunity of conveying his thanks to the members of the Advisory Board of Industries and other Boards and Committees associated with the department for the assistance rendered by them.

By order of the Govt. of Bengal
(Ministry of Industries),

CALCUTTA, THE 4TH DECEMBER 1931.

RESOLUTION—No. 20834P.

The Governor in Council has had under consideration the report submitted by the Committee appointed to inquire into the occurrence at the Hijli Detention Camp on the 16th September 1931, and has decided to publish for general information the conclusions at which he has arrived.

2. It is clear from the report of the Committee that before the 16th September there had been various instances of misbehaviour on the part of the detenus in the camp, which show that the detenus gave continuous trouble and annoyance to those who were charged with the duty of guarding them. On the 15th a number of detenus tried to force their way past the inner gate and assaulted a sentry who rightly stopped them. His Excellency in Council agrees with the Committee's view that these incidents, especially that of the 15th, had produced ill-feeling between the detenus and the sepoys; and he notes that in all the incidents the detenus were the aggressors.

3. It is also clear that on the night of the 16th detenus were again the aggressors and two sentries were interfered with by them. At all times interference with a sentry is a serious offence, and when the interference takes place at night, the gravity of the offence is greatly enhanced. The sentries thus interfered with would have been justified if after warning they had fired at the detenus concerned instead of merely giving an alarm.

4. It seems to His Excellency in Council that there can be no question that the entry of the guard into the camp after the alarm had been given was justified; it was their clear duty to enter and go to the help of the sentries.

5. With regard to the firing which took place subsequently and is described by the Committee as a regular fusillade from the sepoys, it must be remembered that an alarm had been given and that shots had been fired by sentries; and that after the guard had entered there was what the Committee describes as a half-hearted retaliation by some of the detenus. As no order to fire appears to have been given, the extent of the subsequent firing which took place cannot be justified. Although the evidence that some of the sepoys entered the building and there caused some of the casualties is not quite convincing, His Excellency in Council accepts the finding of the Committee, and holds that the action of these sepoys was a serious breach of discipline.

6. His Excellency in Council fully agrees with the Committee's finding that neither the Commandant nor the Inspector had any complicity in the shooting affair, and is satisfied that the insinuations made against these officers are totally unfounded.

7. The conclusions to which His Excellency in Council has come are therefore that the primary responsibility for the incident, which resulted in two deaths and injuries to several persons, rests partly with those detenus whose misbehaviour had brought about the irritation and high tension which the Committee find to have been in existence before the 16th September, and more particularly with those who interfered with the sentries on the night of the 16th September. He also finds that the guard which entered the camp when the alarm was given was not

kept under proper control, that there was unjustifiable firing and that some of the sepoys entered the building and caused injuries to some of the inmates. He also accepts the conclusion to be drawn from the Committee's report that an officer of rank superior to that of a havildar must ordinarily be in the vicinity of the camp to deal with emergencies.

8. His Excellency in Council greatly regrets the tragic results of the series of incidents in Hijli Camp. They prove beyond doubt the necessity for the maintenance of a higher standard of discipline among the detenus in such camps. For it is only by the enforcement of strict discipline that the recurrence of such incidents can be prevented Orders have accordingly been issued to Commandants of Detenus' Camps that the instructions issued for the treatment of detenus must be carefully followed.

9. As regards the police arrangements for guards in Hijli Camp, these have already been revised so that a more responsible officer than a havildar will always be present at the camp, and in addition one of the superior officers will be at once available should the need arise.

10. As regards the breaches of discipline on the part of the police concerned in the incident of the 16th September 1931, these will be dealt with departmentally by the Inspector-General of Police.

The normal surplus which may be expected in future, (*e.*, the difference between the average ordinary income and the average ordinary expenditure, calculated on the figures in columns 13 to 15 and 17 to 19, respectively.

In addition to the details required on the previous page, information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the District Board has taken, or has agreed to take, in order to make good the deficiency.	There will be enhancement of income in the shape of increased cess receipts in the near future, when the settlement operations are final, leaving surplus, sufficient annually, for repayment of the loan in yearly instalments.
(*b*) Possible means on increase in the revenues of the District Board.	Increase in cess revenue with the revaluation consequent upon the settlement of the district records, that has advanced much already.
(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.	Loan of Rs. 98,262 with currency of 25 years for payment of outstanding dues and for completing works in progress of tanks and masonry wells, taken on 20th September 1930 yearly instalment Rs. 8,242-14-3 including Rs. 2,600 payable out of the water-supply grant. Balance unpaid—the full amount of the loan, as the first yearly instalment falls due on 20th September 1931.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the District Board when such position is otherwise than the ordinary surplus would indicate.

GOVERNMENT OF BENGAL.

Finance Department.

Finance.

RESOLUTION No. 5872F.

Calcutta, the 11th December 1931.

In conformity with the policy inaugurated by the Government of India to meet the present financial position, His Excellency the Governor is pleased to announce that with effect from 1st December 1931, he himself, the Members of his Executive Council and the Ministers-in-charge of the Transferred departments of Government will forego 10 per cent. of their respective salaries.

2. Further, in exercise of the powers delegated by the Secretary of State, His Excellency in Council and acting with his Ministers, etc., has decided that the pay of the services and posts, the conditions of whose service are determined by the Government of Bengal, shall (subject to the exceptions noted below) be reduced by 10 per cent. with effect from the 1st December 1931. The cut will be of a temporary nature, and will not extend beyond the need of the present exceptional emergency.

Nature and extent of the cut.

3. (*i*) The cut will be 10 per cent. on pay as defined in Fundamental Rule 9 (21) (*a*).

(*ii*) The cut will come into operation on pay earned after 30th November 1931; thus, for salaries paid after the end of the month for which they are earned, it will be made on salary bills payable on 1st January 1932 for pay earned for December 1931.

(*iii*) No pay will be liable to this reduction unless it exceeds Rs. 40 per month.

(*iv*) The cut will not operate to reduce below Rs. 40 any pay now in excess of that amount.

(*v*) For salaries of Rs. 50 and below, the following scheme of shading shall be adopted:—

For salaries of Rs. 50, the full 10 per cent. cut of Rs. 5 will be operative. From any salary exceeding Rs. 40 and less than Rs. 50 the deduction will be one-half of the difference between the sum otherwise due and Rs. 40. Thus salaries of Rs. 49 will be cut Rs. 4-8, those of Rs. 48 will be cut Rs. 4 and so on; Rs. 42 will be cut by one rupee, Rs. 41 by eight annas, Rs. 40 and below will be untouched.

(*vi*) Sergeants of Police and other Police officers of all ranks up to and including Sub-Inspectors of Police and officers of corresponding ranks in the Military and Armed Police shall be exempted from this cut.

(*vii*) In salary bills the uncut pay should be shown and a deduction then made to show the net pay after the cut has been made.

Income-tax and Super-tax.

4. The cut will include the recent surcharge and also the tax on salaries from Rs. 1,000 to Rs. 2,000 per annum. These taxes will not be levied for any portion of the current financial year or in regard to any period during the next financial year for which the cut is in force. Other income-tax and super-tax will be assessed on the net pay, after deduction from the gross pay of the amount of cut and of other amounts, deduction of which is already allowed.

Police officers exempted from the cut will be liable to full payment of income-tax including the surcharge.

Pensions and Provident Funds.

5. The cut will not affect pensionary or Provident Fund rights—

(*i*) Pensions will continue to be calculated on the pay that would have been earned, had the cut not been made;

(*ii*) Government will continue to make contributions to Provident Funds on the same principle as at present;

(*iii*) Subscribers to Provident Funds will have the option to subscribe—

(*a*) on the pay without deduction; or

(*b*) on the balance after deduction;

(*iv*) Subscribers will continue to have the right, where it exists, of subscribing the maximum on the uncut pay or the cut pay.

Leave Salary.

6. The cut will be made on leave salary when the leave is on average pay. The leave salary will be calculated on the pay which would have been earned had no cut been made, and 10 per cent. will then be deducted. No cut will be made on leave salary when the leave is on half or quarter average pay.

Overseas Pay.

7. Deductions from overseas pay should be made in India at 10 per cent. on the amount of the overseas pay, calculated at 1s. 6d. to the rupee. The overseas pay will then be paid in full.

8. The above orders will not apply to officers appointed on contract. The case of such officers is under consideration, and orders regarding them will be issued separately.

9. An officer whose pay is liable to a reduction of 15 per cent. under Resolution No. 3219F., dated the 7th August 1931, shall be exempted from this 10 per cent. cut. But he shall be liable to full payment of income-tax including the surcharge and shall in no case draw more pay than that admissible to him prior to the issue of the said Resolution less 10 per cent.

By order of the Governor in Council,

E. N. BLANDY,

Secretary to the Government of Bengal.

NOTIFICATIONS.

Minister-in-charge: The Hon'ble Mr. Bijoy Prasad Singh Roy.

No. 3000P.H.—10th December 1931.—The following proceedings of the third meeting of the sub-committee about malaria in the vicinity of Calcutta held on the 24th November 1931 are published for general information:—

Proceedings of the third meeting of the Sub-Committee about malaria in the vicinity of Calcutta held on the 24th November 1931.

1. The following members of the sub-committee were present.—

Dr. R. B. Khambata, Director of Public Health, President.

Mr. R. Senior-White, Malariologist, Bengal Nagpur Railway.

Dr. C. D. Newman, representing Chief Medical Officer, Eastern Bengal Railway.

Dr. B. N. Ghosh, Chief Medical Officer, Messrs. McLeod & Co.

Dr. K. P. Mukherji, District Health Officer, Howrah.

Dr. S. N. Nandi, District Health Officer, 24-Parganas.

Dr. P. S. Gupta, Municipal Health Officer, Budge-Budge.

Dr. L. M. Biswas, Health Officer of Calcutta Corporation, was absent.

2. The progress reports of control measures in Budge-Budge and Chengail for the months of September and October submitted by Mr. Iyengar and Dr. Sarkar were discussed. Both Mr. Senior-White and Dr. Mukherji were of opinion that the measures taken at Chengail have been satisfactory. Drs. Nandi and Gupta corroborated that the measures on the Budge-Budge side have similarly been satisfactory.

3. The committee agrees with Mr. Senior-White that in the slack season of the cold weather minor engineering schemes may be drawn up, consulting the Engineering Department, so that if carried out before the next season, permanent benefits would accrue.

4. Dr. B. N. Ghosh expressed his satisfaction at the efficacy of the anti-larval measures in the breeding places at Falta. The committee is of opinion that the number of catches of adult ludlowii mosquitoes at Majerhat has considerably decreased owing to the anti-larval measures, particularly with

paris green, taken by the Bengal Public Health Department as well as owing to measures taken by the Kalighat-Falta Railway authority.

5. The progress report of the survey for the months of September and October by Dr. B. Ghosh, Entomologist in charge, was then discussed. Dr. Newman informed for record by the committee that he had found on the 12th November one adult male A. ludlowii at Brace Bridge Railway station in the ladies' waiting room. Mr. Senior-White also reported that he caught four adult specimens—all females—three in two weeks at the Port Commissioners' storeyard near berth No. 14 and one in the Dumayne Avenue.

6. In Mr. Senior-White's opinion village Abada and Andul should be surveyed as malaria sickness has increased this year amongst the railway employees. Dr. Newman suggested that a survey should similarly be made in Jadabpur, where malaria has increased. Dr. Gupta informed that in K. P. Mandal Road in the Jaichandripur quarter of the Budge-Budge Municipality, there is increase in malaria sickness, and suggested that a similar survey should be taken up there also. He pointed out that this locality was outside the control area.

7. Dr. Nandi informed that the villages of Khasibari and Baghmari, close to the control area of Budge-Budge, were affected badly with malaria last year but not this year. The committee thinks that it is significant that the places being within half a mile from the area under control they were affected by the control measures.

8. Mr. Senior-White pointed out the importance of boat traffic on the spread of A. ludlowii further westward from the river Hooghly, and he advises that the attention of other Directors of Public Health should be drawn about the fact that there is possibility of A. ludlowii invasion further westwards by means of uncontrolled country boats.

9. Dr. Newman informed that there has been an increase of malaria in Barasat, and he undertook to make a local mosquito survey. Mr. Senior-White wanted to put on record that his assistant Dr. Adhikari had made a survey at Hooghly Point, where he could not find any A. ludlowii.

10. Dr. Sur's note, dated the 21st November 1931, on the incidence of A. ludlowii in Ulubaria and Paikpara (Sonarpur) was considered, and the committee agreed that as far as the present year is concerned the breeding has ceased, but close watch should be kept with a view to take instantaneous control measures if A. ludlowii be found subsequently.

11. The committee read and approved of the scheme submitted by Dr. Mukharji subject to the approval of the Engineers, and recommends that this should be sent to the Chairman, Howrah district board, to have a detailed scheme worked out by the District Engineer by the end of the current calendar year.

12. Dr. Khambata pointed out that, in view of the wide publicity given in newspapers on the threatened malaria menace to Calcutta, it was highly necessary for this committee to express an opinion with special reference to the invasion of A. ludlowii. The committee therefore passed the following seven resolutions unanimously, for the information of Government:—

Resolutions.

(1) There is certainly an increase of malaria in the whole of Bengal and in Calcutta this year.

(2) As far as Calcutta is concerned this committee is not in a position to say definitely to what mosquito it is due.

(3) As regards ludlowii, with which this committee is particularly concerned, recent investigations show that there is a considerable importation of this mosquito by railway trains and by country boats into Calcutta.

(4) The breeding places nearest to Calcutta so far located were last month at Falta and Ulubaria, but the committee is not in a position to state that there are no other breeding places, owing to the paucity of staff under the Director of Public Health which has prevented it from surveying many other places in the vicinity of Calcutta. But those areas so far surveyed in the vicinity of Calcutta have failed to show breeding of ludlowii.

(5) Owing to the measures of control initiated by the Bengal Public Health Department and this committee, certain other breeding areas have been sterilised.

(6) The committee feels that it has the situation in its daily changes well in hand, but that it also feels that, owing to paucity of staff and restricted powers, it has not as much information as it could wish.

(7) A mosquito survey on these lines within the area of the Calcutta Corporation itself is of the utmost and urgent necessity.

Class VII.

Problems.

Bisection of angles, and straight lines.
Construction of perpendiculars to straight lines.
Construction of an angle equal to a given angle.
Construction of parallels to a given straight line.

Theorems.

If two sides of a triangle are unequal the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or
(2) a pair of corresponding angles are equal, or
(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

The sum of the angles of a triangle is equal to two right angles; and the two corollaries thereto.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal and one other side of the one equal to one other side of the other, the triangles are congruent.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram; and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 7th December 1931.

Second Forecast of the Winter Rice Crop of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under winter rice in Bengal has represented some 17·5 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the first forecast, the weather was generally favourable for the preparatory tillage and for the sowing of broadcast paddy in East and North Bengal. Transplantation of winter paddy also progressed favourably. Towards the end of July high floods caused damage in the riparian tracts of East and North Bengal and temporarily checked the progress of transplantation in the affected parts. Subsequent rainfall was responsible for the large increase in area under the crop. Good rainfall in October materially helped the growth and final development of the transplanted paddy. On the whole, a good outturn is expected for the province.

Acreage.—According to the figures returned by the District Officers the total area under winter rice is 15,511,900 acres as compared with 14,900,300 and 15,120,300 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended it will be seen that six districts report a normal crop, nineteen districts report a crop varying from 75 to 95 and only two districts below 70 per cent. of the normal. According to the above estimates the provincial outturn works up to 86 per cent. as against 100 per cent. estimated by this department both in the corresponding and final forecasts of last year. In view of the favourable weather conditions which prevailed in October I am of opinion that the provincial outturn will not fall short of 95 per cent. of the normal.

Accepting 95 per cent. as the provincial outturn the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 6,766,700 tons this year as against 6,842,000 and 6,943,000 tons, respectively, in the corresponding and final forecasts of last year.

R. S. FINLOW,

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 8th December 1931.

Third Forecast of the Cotton Crops of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Continuous showers during the period of harvesting reduced the outturn of early crop in the important district of the Chittagong Hill Tracts and in the Tripura State. Elsewhere the outturn was better than last year.

The prospects of late crop, so far, are favourable.

Area sown.—The total area sown with early cotton is returned at 74,327 acres and that with late at 1,103 acres, against 76,207 and 503 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 16,608 bales and the late crop at 338 bales, against 18,380 and 101 bales, respectively, in the corresponding forecast of last year.

CALCUTTA, THE 14TH DECEMBER 1931.

RESOLUTION No. 7230 Co-op.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

Read—

The Report on the working of the Co-operative Societies in the Presidency of Bengal for the year ending 30th June 1931.

Rai S K. Ganguli Bahadur held the office of Registrar throughout the year.

The Registrar has represented the necessity of strengthening the superior controlling staff of the department, but the present moment is inopportune for the consideration of such a proposal, which must await the return of normal conditions. Financial stringency has also stood in the way of strengthening the staff of Inspectors according to normal requirements, but such staff as is indispensably necessary has been provided. Government are also fulfilling their obligations in regard to the provision of additional staff required for statutory audit with the increase in the number of societies each year. The inspecting and auditing staff forms the backbone of the department, and the success of the movement largely depends on the maintenance of a high standard of efficiency of this staff. Too much stress cannot, therefore, be laid on the importance of providing for thorough and effective training of this staff in the law and principles of co-operation and in the system of audit and inspection. Government (Ministry of Agriculture) will watch with interest the working of the system of training introduced by the Registrar.

2. The co-operative movement in Bengal had to pass through a period of severe stress during the year under report. The economic situation caused by world-wide trade depression coupled with the unusual fall in commodity prices, especially of jute and paddy, which resulted in shortage of money, adversely affected the agricultural population. Distress prevailed in parts of certain districts, and measures of relief had to be undertaken. Under these circumstances not only did the credit side of the movement suffer, but the operations of non-credit agricultural and non-agricultural societies were adversely affected. This adversity was not without its lesson: it brought into prominence such defects and weaknesses of the co-operative movement as were apt to be overlooked or passed over in times of prosperity and has led to the adoption of measures for remedying them.

3. Attention is naturally drawn to the working of the rural credit societies in which the foundation of co-operative fabric lies and the soundness of which is the real test of its strength. The state of affairs revealed in the Registrar's report calls for serious attention. According to audit classification there has been a steady decline in the number of good and fairly good societies the proportion of which to the total number classified was 5·1 per cent. against 10·7 per cent. in 1925-26. The number of bad and hopeless societies, on the other hand, rose from 17·9 per cent. to 20·1 per cent. in the year under report. The bulk of the societies belonged to the average class whilst 3,408 societies were under probation. Noteworthy among the defects to which the deterioration of the rural credit movement is attributable is the faulty system of loan under which short-term capital is invested in long-term loans, and the lack of care in making loans. Neither is the normal credit of societies and of their members properly assessed or tested nor is the repaying capacity of the members based on their annual income, taken into account. The inevitable result is that over-financing is followed by failure in repayment. Facile credit, on the other hand, engenders thriftlessness and encourages indebtedness and leads to the ruin of the individual borrower. There is also a regrettable lack of appreciation on the part of the directorate of the banks and societies of the imperative need of following the instructions of the department regarding the separate investment of reserve funds and maintenance of an adequate standard of fluid resources for meeting emergencies. Last but not the least is the ever-increasing accumulation of over-due loans which—aggravated as the situation has been owing to poor collections in the exceptional circumstances of the year—has risen from

24·1 per cent. in 1925-26 to 56 3 per cent. in 1930-31. It is gratifying to note that the Registrar has taken vigorous measures towards the collection of dues, and enforcement of punctuality in repayments. He has done well to institute a detailed examination of the position of the agricultural credit societies. At the present juncture the attention of the department should be directed to the work of reconstitution even at the sacrifice of numerical strength. There should be no hesitation in placing under liquidation those societies which are beyond all hope of redemption. The Government in the Ministry of Agriculture trust that the efforts of the Registrar in this direction will be attended with success and will lead to a substantial reduction in the amount of outstanding loans and result in the stabilisation of rural credit. Liquidation is indeed a long and tedious process and occupies much of the time of departmental officers, but this cannot be avoided in the present circumstances.

4. At the same time too much stress cannot be laid on the important part which should be played by the Central Banks towards the achievement of the object of securing proper business management of the primary societies affiliated to them and of improving their quality. The Registrar has rightly pointed out the mistake of taking a detached view of the working of a Central Bank without a consideration of the actual state of affairs of its member societies. While, therefore, the department is unremitting in its efforts to improve the quality of the primary societies, the Central Banks should not be failing in their obvious duty of providing for efficient supervision. The principles of sound banking require careful scrutiny of the financial position of individual societies and proper assessment of their credit, etc., before making a loan to them. The need for maintaining sufficient fluid resources and for investing the reserve funds outside their own business cannot also be overestimated.

5. As already noticed agricultural purchase, and purchase and sale societies sustained loss, while the jute sale societies which failed and became bankrupt had to be closed down and placed under liquidation. The loss sustained by them naturally had repercussions on the financial side of the movement. It is gratifying to note, however, that the recuperative strength of the movement has withstood the difficulties. A thorough enquiry was instituted in the matter, and it is hoped that it will be possible to allocate responsibility for this failure in the near future.

The failure of the jute sale societies has made it apparent that there are various difficulties which are not easy to meet successfully in the operations of purchase and sale societies. Government have, therefore, come to the conclusion that in the present circumstances anything like a widespread movement for co-operative purchase and sale is premature.

6. Great interest attaches to the movement for improving the public health and sanitation of rural areas in the Presidency. The total number of societies of this class rose from 758 to 811 and their membership from 17,014 to 17,497. Valuable work has been done by these societies by concerting measures for combating malaria and other preventible diseases within their respective areas. The inception and development of this form of co-operative effort is due to the unfailing energy of Rai Gopal Chandra Chatterji Bahadur and his fellow workers.

7. The thanks of Government (Ministry of Agriculture) are due to Rai S. K. Ganguli Bahadur for the manner in which he discharged his duties during a period of great stress and anxiety. The Minister in charge trusts that by continuance of his unfailing energy and devotion to duty Mr. Ganguli will be able to guide the movement safely through the present unfavourable conditions. He also notices with pleasure the good work done by the officers of the department mentioned by the Registrar. The unstinted co-operation received by the department from the sister departments of Agriculture, Industries and Veterinary also deserves mention.

The Minister in charge is pleased to place on record his appreciation of the valuable assistance rendered to the movement by the various district, subdivisional and other officers named by the Registrar and by all non-official gentlemen connected with it.

Resolution on the sixty-ninth annual report of the Government Cinchona Plantations and Factory in Bengal for the year 1930-31.

GOVERNMENT OF BENGAL.

Cinchona.

CALCUTTA, THE 14TH DECEMBER 1931.

RESOLUTION—No 14829 Cin.

Read—

The sixty-ninth annual report of the Government Cinchona Plantations and Factory in Bengal for the year 1930-31.

Read also—

The reports of the previous three years.

Mr. C. C. Calder held charge of the office of Superintendent throughout the year.

2. The world price of quinine has been maintained since the year 1926-27 in spite of general depression, and there is no prospect of any reduction although the price of many other chemical products has declined. The total consumption of quinine in India is also keeping remarkably steady at about 211,000 lbs. per annum, but in the opinion of the Superintendent this is not due to the steadiness of the price. An interesting event of the year was the celebration of the tercentenary of the discovery of cinchona bark as a remedy. An exhibition organised by Dr. Wellcome at the Wellcome Historical Medical Museum in London was opened in December 1930, with specimens and documents illustrating the history of the bark.

3. The area under cinchona in Bengal at the end of the year was 2,657·91 acres. Extensions comprising 120·2 acres were carried out during the year in both the plantations, Mungpoo and Munsong.

4. Owing to a serious drought during the whole of the cold weather season from November to March, there were many casualties in the young cinchona blocks in both the plantations, and only the strongest plants survived. Some damage was done to the Burmiak Division of the Munsong plantation by hail, leaves and even bark being stripped from the trees in one or two of the blocks. It is remarkable that in newly opened field nurseries both in Labdah and Rungbee Divisions in the Mungpoo plantation there was not a single diseased plant, whereas in a four-year old field nursery in the Mungpoo Division planted with seedlings taken from the same seed-beds disease was rampant although the precaution had been taken of completely changing the top-layer of leaf soil in the beds. An interesting experiment in this connection was carried out in the Sittong Division in Mungpoo, where an old field nursery, which had previously been infested with disease, was re-opened after lying fallow for a period of five years, and planted with seedlings of Ledger and Succirubra from the seed-beds of both Mungpoo and Munsong. There was no trace of disease visible in the plants after growing in the nursery from July to May. In Munsong the only land now available for planting is the vacant space in the existing blocks. Nursery disease was less noticeable in this plantation, and the late sowing with early removal from the nurseries is doubtless improving matters. A mycologist from Pusa visited the plantations during the year and carried out a series of inoculations with the object of securing more data regarding the life history of the disease, and a few plants that died soon after inoculation were uprooted and sent to Pusa for examination.

5. 1,476,054 lbs of Bengal bark were harvested in the year of report against 1,130,402 lbs. in the previous year.

6. The quantity of dried bark used in the factory during the year was 1,153,954 lbs., of which 983,781 lbs. were Bengal bark, and the rest Java and Burma bark belonging to the Government of India.

7. Altogether 43,028 lbs. of quinine sulphate were manufactured during the year at a cost of Rs. 2·721 per lb. Of this 5,959 lbs. belong to the Government of India. The total quantity of cinchona febrifuge manufactured during the year was 20,219 lbs., of which 3,266 lbs. represent the share of the Government of India. The expenditure incurred on the febrifuge was Rs. 1·820 per lb. Besides, 609 lbs. of other quinine salts were manufactured.

8. The total expenditure of the department during the year including pensionary charges was Rs. 4,08,433. The total receipts exclusive of Rs. 4,923 from land rent, grazing fees, etc., paid into treasury not to the credit of the Cinchona Department, and Rs. 22,158 being the payment on account of the extraction work done for the Government of India, but inclusive of Rs. 1,872 received direct from miscellaneous products, etc., were Rs. 6,27,228. Of this amount, a sum of Rs. 31,515 is deducted for credit to the Jails Department for distribution of the cinchona products, leaving a balance of Rs. 5,95,713 for entry in the profit and loss valuation account. The expenditure was lower by Rs. 7,663 and the receipts were higher by Rs. 7,848 than in the preceding year. Outstandings at the end of the year amounted to Rs. 29,250 consisting of Rs. 7,092 due on account of sales, Rs. 16,214 for extraction of 5,959 lbs. of quinine sulphate and Rs. 5,944 for extraction of 3,266 lbs. of cinchona febrifuge on behalf of the Government of India. The profit balance on the year's working amounted to Rs. 2,82,667, a result that may be considered satisfactory as trade depression with diminished purchasing power was evident during the year.

9. There has been a further considerable increase in the Bengal stock. The quantity of quinine sulphate powder, which forms the bulk of the stock, increased from 52,905 lbs. to 73,523 lbs. The difficulty of reducing the stock has been explained in previous years. If quinine were offered in the open market at a price below the world price, it is probable that most of the benefit would go to dealers instead of to consumers, and further there would be export which would deplete the stock without any advantage to the population for whom it has been produced.

10. The figures contained in the report indicate that satisfactory progress has been made in the production of quinine during the year under review. The thanks of Government are due to Mr. Calder, the Superintendent of Cinchona Cultivation, to Mr. Shaw, the Quinologist, and to the other officers of the department, particularly to Mr. P. V. Osborne, Manager, Mungpoo Plantation, for the continued improvement of the Plantation effected by him.

CALCUTTA, THE 21ST DECEMBER 1931.

RESOLUTION—No. 11550A.

The Governor in Council has learnt with feelings of profound regret of the death of Mr. C. G. B. Stevens, I.C.S., District Magistrate of Tippera, at the hands of terrorists on the morning of the 14th December 1931.

Mr. Stevens joined the I.C.S. in December 1914 and was first posted to Mymensingh as Assistant Magistrate and Collector. Later, he was Subdivisional Officer successively of Alipur-Duars, Kalimpong and Barrackpore.

He was Deputy Registrar of Co-operative Societies, Bengal, for over a year, in which post his loyal and meritorious work was specially brought to the notice of Government. From March 1922 for more than five years he served as Deputy Commissioner of the Chittagong Hill Tracts, where his enthusiasm and energy took him to every village and his sympathy brought him into close touch with the people throughout the district. After a year in West Bengal as Magistrate-Collector of Birbhum Mr. Stevens held charge of Tippera district for nearly two years. He had recently been selected to fill the post of Commissioner of Excise and Salt and was to have joined that post in the beginning of January.

In Mr. Stevens the Presidency has lost an officer of varied gifts. He had served in many different parts of Bengal, and everywhere those with whom and under whom he served have paid tributes to his devotion to his work and to his abounding energy.

Government tender their sincere sympathy to his widow and those relatives and friends of his who mourn his untimely loss.

Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. EXPENDITURE.—The expenditure for the year was Rs. 32·19 lakhs against a budget provision of Rs. 31·81 lakhs. The excess of Rs. 38,000 over the budget estimate has arisen through the payment of charges towards the new Debenture Loan and also depreciation on securities for which there was no budget provision. These two payments amount to Rs. 2;39 lakhs and if eliminated from the budget estimates there remains a saving of Rs. 2·09 lakhs which is accounted for by a gain in exchange in remitting the interest on Sterling Debenture Loans, and reduced expenditure on stamp duty and establishment charges.

The closing balance at credit of Revenue Account is Rs. 4,10,69,655-13-7 of which a sum of Rs. 3,21,00,790-14-10 has been spent on Capital Account to meet payments in excess of Capital Receipts. The nett balance of Rs. 89,68,864-14-9 was held as follows:—

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th December 1931.

Final Forecast of the Bhadoi crops of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under autumn rice in Bengal has represented some 6·1 per cent. of the total area under rice in British India.)

Character of the season.—As indicated in the first forecast the weather was generally favourable for the sowing and growing period of the crops. In the end of July when harvesting was progressing high floods caused damage in the water-logged tracts of East and North Bengal. Elsewhere a good outturn was reaped. On the whole the season was satisfactory for the crops.

Acreage.—The total acreage sown with the different bhadoi crops this year is reported to be 6,929,100 acres as against 5,837,700 acres last year. Of this the area under autumn rice is estimated at 6,163,000 acres as against 5,082,100 acres last year. The increase in area this year is attributed mainly to the decreased cultivation of jute.

Outturn.—According to District Officers' estimates, the outturn of the different bhadoi crops for the Presidency works out at 81 per cent. of the normal this year as against the same estimate last year.

The autumn rice is estimated to yield an outturn of 81 per cent. of the normal for the province this year as against 105 per cent. estimated by this department last year. In my opinion the outturn of autumn rice is an underestimate and the crop will not fall short of 90 per cent. of the normal this year as estimated in the preliminary forecast.

On the basis of a normal yield of 10¾ maunds of clean grain per acre, the gross outturn of bhadoi paddy (autumn rice) for the province is estimated at 2,190,400 tons this year as against 2,107,300 tons last year.

R. S. FINLOW,

Director of Agriculture, Bengal.

The increase in area in some cases since the preliminary forecast is due to decrease in area under jute, to revision of estimates and to extension of cultivation. The decrease in others is due to practical abandonment of their cultivation. The weather was fairly favourable. The outturn is below the normal owing to damage caused by flood.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th December 1931.

First forecast of the Spring Oilseed crops of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under linseed in Bengal has represented some 3·6 per cent., and that under rape and mustard 11·4 per cent. of the total areas under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting Sesamum for which separate forecasts are issued) is returned at 933,600 acres this year as against 901,900 and 933,400 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September was sufficient for the preparatory tillage. Sowings though commenced in the usual time were somewhat late in some East and North Bengal districts due to late subsidence of flood water. Dry weather which prevailed from the second week of November was helpful to the growth of the crops. The present outlook is satisfactory on the whole.

R. S. FINLOW,

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th December 1931.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under til in Bengal has represented some 2·6 per cent. of the total area under til in British India.)

Character of the season.—The rainfall in August and September was sufficient for the ploughing of fields and for the sowing of crop which generally commenced in the normal time. In the important district of Pabna, however, much less area was sown owing to late subsidence of flood water. Excessive rainfall in the end of October and the beginning of November reduced the outturn in some districts. Subsequent dry weather was helpful to its growth. On the whole a satisfactory outturn is anticipated for the province.

Acreage.—The total area sown with the crop this year is estimated at 49,600 acres as against 53,500 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the crop for the province as a whole works out at 84 per cent. of the normal as against 87 per cent. last year. Taking 6 maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 9,200 tons this year as against 10,300 tons last year.

R. S. FINLOW,

Director of Agriculture, Bengal.

Dinajpur ..	400	400	500	83	75	Middle of August. Normal.	Not yet commenced.	The weather was favourable at sowing time, but frequent rain after that retarded the growth. Hence the outturn is below the normal.

Bogra ..	800	800	1,000	70	75	September ..	December and January. Normal.	The increase in area is due to the sowing of *rabi* crops on the land on which *kharif* crop failed due to heavy flood.
Pabna ..	9,000	7,600	2,600	75	50	Latter part of October. Late.	Will commence in the latter part of February. Late.	This crop has not been grown in the Sera'ganj subdivision this year and much less area has been sown in the Sadar subdivision on account of late subsidence of flood water. Hence the outturn is below the normal.
Malda ..	1,400	1,200	1,200	83	92	By the first week of October. Normal.	December. Normal.	The weather was favourable for the growth of the crop.
Dacca ..	3,900	10,100	10,100	96	93	September. Normal.	Will commence in the first week of February. Normal.	The increase in area over normal is mainly due to reduction of jute cultivation. The outturn is a little below the normal owing to damage by heavy rain in November.

Dacca, the 18th December 1931.

Monthly Weather and Crop Report of Bengal for November 1931.

I. **Character of the season.**—During the first week of the month excessive rain fell almost all over the province. Since then the weather has been dry. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparation of fields for and sowing of spring crops were proceeding but the progress of the operations were retarded by heavy rain in some districts. Reaping of winter paddy commenced under favourable conditions.

III. **State of standing crops.**—The condition of standing crops was reported to be good but some early spring oilseed crops suffered through excessive rain.

IV. **Prospects and probable outturn.**—The prospects of standing crops are reported to be favourable, on the whole. The outturn of autumn rice is estimated at 90 per cent. of the normal and that of winter rice at 95 per cent. this year.

V. **Damage to standing crops.**—Rainfall during the first week of the month is reported to have caused damage to spring oilseed and winter *til* crops in some districts.

VI. **Condition of agricultural stock.**—Condition of live-stock was generally fair. Stray cases of cattle-disease, however, were reported from six districts of the province.

VII. **Failure of pasturage and fodder.**—Supply of fodder was reported to be sufficient except in the flooded tracts of Rangpur, Pabna and Faridpur.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in six districts, fell in twelve and remained stationary in the rest of the province The price ranged from 16½ seers per rupee at Midnapore to 8½ seers per rupee at Howrah and Jalpaiguri.

IX. **Condition of agricultural population.**—The condition of agricultural population is, on the whole, fair except in parts of Bogra and Dinajpur where distress continues to be reported.

(2) The Board may recover all expenses incurred by the Chief Sanitary Officer in carrying out the measures under regulation 4 from the person or persons to whom the notice was originally issued.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 3272L. — 19th December, 1931.—The following report of the Select Committee on the Garden Reach Municipality Bill, 1931, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Garden Reach Municipality Bill, 1931.

We, the members of the Select Committee to whom the Garden Reach Municipality Bill, 1931, was referred by a motion carried in the Bengal Legislative Council on the 23rd July, 1931, have the honour to submit this our report with a copy of the Bill as amended by us annexed. All matter omitted by us has been printed in italics and enclosed in square brackets, and all new matter inserted has been underlined.

The Committee met on six occasions between the 3rd August, 1931, and 3rd September, 1931, postponing their deliberations in order to secure and consider the views of the Corporation of Calcutta. The Committee examined one witness from the Corporation of Calcutta on the financial adjustment to be made between the new municipality and the Corporation.

The Bill was published in English in the *Calcutta Gazette* on the 30th August, 1931.

We do not consider that the Bill has been so altered as to require republication.

We recommend that the Bill as now amended be passed.

The following are the principal changes made in the Bill:—

Long Title and Preamble.—The drafting has been revised.

Clauses 2 and 3.—The drafting has been revised.

Clause 4.—We have revised the drafting of sub-clauses (1), (2), and (3). The alterations in sub-clauses (6) and (8) are self-explanatory.

Clause 5.—We have altered this clause, making a corresponding change in sub-clause (*a*) of clause 6, to leave the ultimate liability for payment of the expenses of the Committee to be decided by the Committee itself.

Clause 6.—The alterations made are self-explanatory.

Clause 7.—We considered whether the final responsibility for the orders to be made on the report of the Committee should rest with the Local Government that is to say whether the Local Government should have power to modify the conclusions of the Committee and to issue orders otherwise than in accordance with the recommendations of the Committee. We decided that sub-clause (*2*) of clause 7 should not be altered, and that the responsibility of the Committee should be complete.

Clause 8.—We have rectified an omission in this clause.

Clause 9.—We are of opinion that the best way of meeting the practical difficulties of the first establishment of the new municipality is to have the first Commissioners and Chairman nominated by the Local Government. We have provided accordingly in the three new clauses 9, 9A and 9B, imposing on these nominated Commissioners the duty of preparing the ground for the first election of Commissioners. We find it necessary to allow two years for the completion of this task as the electoral roll can only be completed in the second year on the basis of payments made in the first year.

Clause 10.—We have here provided for the determination by the Committee of the movable property that is to be made over to the new municipality.

We have rejected the proposal of the Bill regarding the rates, taxes and fees which shall be in force at the reconstitution of the municipality. We consider that it will be administratively more convenient that the valuations, rates, taxes, etc., imposed under the Calcutta Municipal Act, 1923, should continue for one year. This we have provided for in the new clause 10A. We have provided in clause 10B for the revival of all rules, orders, by-laws, etc., that were in force under the Bengal Municipal Act, 1884, in the former Garden Reach Municipality.

Clause 12.—The alteration here made is necessary to safeguard the interest of the Corporation of Calcutta.

Clause 14.—The amendments herein are consequential upon our decision on clause 6 of the Schedule that the annual sum to be paid by the Corporation of Calcutta should be two and a half lakhs instead of two lakhs of rupees. We have added a necessary power to the Local Government to provide for the proper application of the sum which the new municipality is required to reserve for expenditure on works of improvement.

Clause 16.—We have here made provision for the solution of unforeseen difficulties.

The Schedule.—We have omitted clauses 3 and 4 since the provisions of the Calcutta Municipal Act, 1923, which they amend are spent, and are not likely to give rise to any practical difficulties. Clause 11 has been revised in order to include in Ward 25 of the Corporation of Calcutta the portion of Ward 26 which will not be included in the limits of the new municipality.

Note of dissent by Hon'ble Mr. B. P. Singh Roy and Mr. C. W. Gurner, I.C.S.

We are doubtful about the increase in the payment by the Calcutta Corporation to the Garden Reach Municipality proposed in clause 6 of the Schedule, with consequential amendments.

Note of dissent by Rai Dr. Haridhan Dutt Bahadur, M.L.C.

I sign the Report but reserve my remarks about the Corporation contribution laid down in clause 6 of the Schedule and clause 14(*1*) of the Bill.

Note of dissent by Mr. N. R. Luke, M.L.C.

I am opposed to the principle of the Bill, being of the opinion that the whole of the Garden Reach Municipality should remain part of Calcutta. The grievances which are admitted, of a considerable class of ratepayers, owing to the heavy taxation they now have to pay to the Calcutta Corporation, can be remedied by giving the Calcutta Corporation power by amendment of the existing Act to reduce the rate of taxation in respect of outlying and *bustee* areas, keeping the industrial area on the present assessment basis of 19½ *per cent.* The present statutory obligation of the Calcutta Corporation to expend rupees one lakh in respect of the Garden Reach area should, in my opinion, be raised to rupees two lakhs, the whole of this amount to be spent on roads and drainage.

Note of dissent by Mr. D. J. Cohen, M.L.C.

I sign the report subject to the following note of dissent.

I consider the Government should be vested with the final responsibility for orders to be made on the report of the Committee to be appointed under clause 3 of the Bill, after consulting the Corporation and the representatives of the Garden Reach area on the Committee.

I further consider the sum proposed to be paid to the Garden Reach Municipality by the Corporation in clause 6 of the Schedule is excessive, having regard to the facts and figures placed before the Committee by the Chief Accountant to the Corporation.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 3299L. — 22nd December, 1931.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill with the Statement of Objects and Reasons is accordingly hereby published for general information.

THE BENGAL PRIMARY EDUCATION (AMENDMENT) BILL, 1932.

A

BILL

further to amend the Bengal Primary Education Act, 1919.

WHEREAS it is expedient further to amend the Bengal Primary Education Act, 1919, in the manner hereinafter appearing; Ben. Act IV of 1919.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Primary Education (Amendment) Act, 1932.

Insertion of new Part IVA in Bengal Act IV of 1919.

2. After Part IV of the Bengal Primary Education Act, 1919, the following new Part shall be inserted, namely :—

" Part IVA

Compulsory Primary Education of Girls.

Compulsory primary education of girls.

17A. The provisions of this Act relating to the compulsory primary education of boys shall apply *mutatis mutandis* to the compulsory primary education of girls not being less than six or more than ten years of age :

Provided that before making the application referred to in sub-section (*1*) of section 6 the Commissioners shall submit to the Local Government a statement containing in respect of girls within the municipality such of the particulars set forth in section 3 as the Local Government may think fit to require, and shall comply with such directions for the provision of accommodation, staff and equipment and for the management and control of schools as the Local Government may issue thereon:

Provided also that in the case of an application to introduce compulsory primary education for girls the Local Government may if it thinks fit refuse the permission referred to in sub-section (*2*) of section 6."

STATEMENT OF OBJECTS AND REASONS.

Under the Bengal (Rural) Primary Education Act, 1930, compulsory attendance in primary schools in rural areas can be made applicable to girls. In urban areas this is not possible as the Bengal Primary Education Act, 1919 (Ben. Act IV of 1919), only makes compulsion applicable to boys. It is considered that urban areas are generally more likely than rural areas to need the application of compulsion to girls and that the progress of girls' primary education in certain urban areas may shortly justify the application of compulsion.

It is accordingly proposed to amend Bengal Act IV of 1919 to enable municipalities to apply under section 6(*1*) for permission to make primary education for girls b tween 6 to 10 years of age compulsory and to empower the Local Government to grant or refuse such permission as it thinks fit.
